Veterinary Anatomy of Domestic Mammals

Textbook and Colour Atlas

Edited by:
Horst Erich König
Veterinarmedizinische Universität Wien, Austria.

Hans-Georg Liebich
Ludwig-Maximilians-Universität, München, Germany.

Foreword by
Gh. M. Constantinescu, University of Missouri-Columbia, USA.

With contributions from:

Description:
In this magisterial work, the authors have created a unique blend of text, colour photographs, imaging and diagrams describing the gross systematic and topographical anatomy of domestic mammals.

Throughout the book the authors focus on anatomical relationships to clinical conditions and where appropriate, to microscopic anatomy, histology, embryology and physiology.

Greatest emphasis is given to dog and cat and horse, with relevant information on ox/cow, pig, sheep, goat and rabbit.

The book combines meticulous science and superb illustrations, and will be a life-long source of reference for veterinary students, practitioners, educators and researchers.

Contents:

681 pp
310 x 230 mm page size
1022 colour and b/w illustrations
53 tables
Hardcover
ISBN: 3-7945-2101-3
Approximate price: £195.00

Readership:
Students, practitioners, educators and researchers in veterinary medicine and comparative anatomy.

Key Features:
• Single volume—combines meticulous science and superb illustrations.
• Includes all domestic mammals, special focus on dog, cat and horse.
• Clinically relevant throughout.
• Over 1,000 colour photos, imaging, diagrams and tables.
